

订单网址应该要秘密

# 原来的网址是“流水号”

localhost:3000/orders/3

ArtStore Products 購物車 (1) Hi, xdite@growthschool.com

網址呈現的是訂單 id 號碼

## 訂單明細

商品明細	單價
Macbook Pro with Retina 15"	79999

總計 79999 NTD

## 寄送資訊

訂購人
123 - 123
訂購人
123 - 123

# 流水号的危险

- ▶ 路人知道你每天的生意量成交是多少
- ▶ 路人可以猜到 pattern

/orders/1

/orders/0f054ab5-2833-4a6d-bde5-0820b68fffae

# 实作

## Step 1: 新增 token 栏位

> rails g migration add\_token\_to\_order

```
xdite artstore ruby-2.2.0 store-v2 rails g migration add_token_to_order  
r  
  invoke active_record  
  create db/migrate/20151026092754_add_token_to_order.rb
```

修改 migration 档与新增 index

```
db/migrate/xxxx(一堆数字)_add_token_to_order.rb  
  
class AddTokenToOrder < ActiveRecord::Migration  
  def change  
+   add_column :orders, :token, :string  
+   add_index :orders, :token  
  end  
end
```

> rake db:migrate

## Step 2 : 每一笔订单产生前 先乱数产生 token

app/models/order.rb

```
class Order < ActiveRecord::Base
  ... (略)
  before_create :generate_token

  def generate_token
    self.token = SecureRandom.uuid
  end
  ... (略)
end
```

## Step 3 : 设定重导到新网址

重導到 orders/0f054ab5-2833-....

4  app/controllers/orders\_controller.rb
