

- ▶ 作为一个消费者, 我要在前台能够找到商品并结账
  - · 身为消费者, 我要在前台能够找到商品并加到购物车
  - · 身为消费者, 我要在前台能看到购物车明细
  - · 身为消费者, 我要在前台能够将多样商品加到购物车, 并生成一张订单
    - · 身为消费者,当系统生成一张订单前,我可以在确认明细页填 写寄送资讯
    - · 身为消费者,当系统生成一张订单后,我可以用支付宝结帐
    - · 身为消费者, 当我用支付宝结帐后, 我的信箱要能收到一张订单确认信

## 想法

▶ 生成一张订单

▸ 在这张订单上"可以选择"payment method

# Step 1:设定付款按钮

Step 2:将订单分为"已付款"、"未付款"

> rails g migration add\_is\_paid\_to\_order

修改 migration,加入预设值 boolean, false

```
db/migrate/xxx(一堆數字)_add_is_paid_to_order.rb

class AddIsPaidToOrder < ActiveRecord::Migration
    def change
+ add_column:orders,:is_paid,:boolean, default: false
    end
end
```

> rake db:migrate

## Step 2: 纪录订单付款方式

> rails g migration add\_payment\_method\_to\_order

#### 修改 migration

```
db/xxxx(一堆數字)_add_payment_method_to_order.rb

class AddPaymentMethodToOrder < ActiveRecord::Migration
    def change
+ add_column:orders,:payment_method,:string
    end
end
```

> rake db:migrate

```
4 mmmm app/views/orders/show.html.erb
                                                                                                                                         View

```

## 提示

▶ 真正"介接"支付宝,暂时不做

▶ 只在订单纪录

- ▶ 是否付款 is\_paid
- ▶ 付款方式 payment\_method
- ▶ 之后"成立公司"后,再专注实现金流逻辑

## 作业

- ▶ 建立 account/orders 可以看到自己过去所有订单
- ▶ 已付款的订单,不可以再重复被付款
